

Expanding the accessibility
of spiritual care
in Western New York

*“I learned about myself, how to listen
to others and how to aid in change
through reflection, bringing a sense of
purpose to my life.”*

Crossroads
of Caring

Supporting community spiritual health

Crossroads of Caring is a coalition that cultivates community based spiritual care education and support to foster holistic health and wellness.

Our Vision is to be an integral community-based partner for providing spiritual support to all individuals of central and western New York, with particular focus on marginalized populations.

“Many are hungry for spiritual care, regardless of faith tradition, but often don’t know where to begin. We aim to extend the reach of spiritual care and chaplaincy throughout Western and Central New York .”

About Us

Nationally accredited by the Association for Clinical Pastoral Education (ACPE, Inc.), Crossroads of Caring provides education and pastoral formation for spiritual care providers, both volunteer and professional.

We’re also building a workforce of professionally certified community healthcare chaplains to support not-for-profit agencies and other organizations that want to support people who would benefit from spiritual and emotional support.

Clinical Pastoral Education (CPE)

CPE is a rigorous education program consisting of both group instruction and experiential practice. We are an ACPE accredited CPE center providing the highest standard of spiritual care education and pastoral formation.

Equipped to Care

A program designed for those, regardless of religious background, who wish to learn basic spiritual care skills (e.g. reflective listening, empathic responding, coping with grief and loss, basic spiritual assessment & knowing when to help someone seek professional help) for use in your own faith communities or caregiving contexts.

Presentations & Outreach

We can provide workshops for organizations and all faith traditions on spiritual care topics, including Listening Skills, Facilitating Spirituality Groups, Cultivating an Awareness of Emotions and Practices that Nurture Spiritual Wellbeing.
